

## **South Central Regional Transit District Reduced Service March 17, 2020**

---

Due to school closings, in connection with efforts to slow the spread of COVID-19, some bus trips will no longer operate while the schools are closed. Early morning trips on the Turquoise route operating via Anthony to Chaparral and the Purple route operating via Santa Teresa, Sunland Park and the Westside Transit Center will be discontinued until school resumes. Afternoon service from these locations will be adjusted, as needed.

This action affects the Gadsden school district and the students in the Division of Vocational Rehabilitation Program (DVR) located at Good Samaritan in Las Cruces.

The District continues to provide essential transit services to the community with trips for health care, doctors office, hospital and to grocery stores and work. In addition, we have increased cleaning and sanitation on all buses every day.

You can get more up to date notices of these and future service changes by going to our webpage at <http://scrted.org/> where bus schedules are available. For more detailed trip planning use **Google Maps**. Just type in the destination and follow the prompts for routes and times for travel.

For more information, call us at 575-323-1620.
